General Description

ADM699AR is a 5-port Ethernet switch controller manufactured by Analog Devices. Here are some of its features:

Features

- It supports 10/100Mbps Ethernet speed.
- It has five 10/100Mbps Ethernet ports.
- It supports IEEE 802.3x flow control for full-duplex mode and backpressure flow control for half-duplex mode.
- It has an integrated address look-up engine with a 2K MAC address table.
- It supports VLAN tagging and untagging.
- It has a built-in hardware-based Quality of Service (QoS) engine to prioritize traffic.

Application

- Home and small office network switches
- Embedded systems with Ethernet connectivity
- Industrial automation and control systems
- Network interface cards (NICs)
