## General Description

EPM7256AETC100-5N is a specific model number of a programmable logic device (PLD) manufactured by Intel Corporation (formerly known as Altera Corporation).

## Features

- It has 256 macrocells
- 5 ns maximum propagation delay
- 100-pin TQFP package
- 3.3V power supply
- EEPROM technology for non-volatile configuration storage

## Application

- Digital signal processing
- Data communication
- Industrial control systems
- Automotive systems
- Aerospace and defense systems
- Medical equipment
- Consumer electronics
